work

Accenture Technology Analyst (Consulting)

Sep 2017 – Aug 2018 Toronto

- Delivered a digital vendor portal design by Fjord at a large retailer.
- Managed two offshore software development teams from India and Spain through daily scrums to address code defects and UX/UI issues.
- Conducted daily client meetings to refine the interface and weekly demos in front of upper management.

SAP Operations Analyst Intern

May 2016 – Dec 2016 (8 months) Vancouver

- Designed management dashboards and status reports on outstanding backlog items for over 30 software development teams.
- Managed the customer bug triage process for product management through custom dashboards and escalated issues of high priority.

Repsol IT Infrastructure Intern

Sep 2015 – Apr 2016 (8 months) / Calgary

- Managed the server decommissioning process for internal IT teams and successfully decommissioned over 100 servers from gas plants all over northern Canada.

projects

Type

7 week project for a senior interface design course

Developed a mobile typography application where typography enthusiasts can streamline their process of identifying, exploring and discovering typography.
